Date: July 22, 2016

## ROHS II DECLARATION – CERTIFICATE OF COMPLIANCE

EU RoHS 2 refers to Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment (EEE). It replaced the first EU RoHS directive 2002/95/EC (RoHS 1) and entered into force on 21 July 2011.

The maximum concentrations allowed by weight of the hazardous substances in any sub-component are as follows:

- Cadmium (Cd) - 0,01%
- Mercury - 0.1%
- Lead (Pb) - 0.1%
- Hexavalent chromium (Cr6+) - 0.1%
- Polybrominated biphenyls (PBB) - 0.1 %;
- Polybrominated diphenyl ethers (PBDE) - 0.1 %
- Bis(2-Ethylhexyl) phthalate (DEHP) - 0.1% (added in 2015);
- Benzyl butyl phthalate (BBP) - 0.1% (added in 2015);
- Dibutyl phthalate (DBP) - 0.1% (added in 2015);
- Diisobutyl phthalate (DIBP) - 0.1% (added in 2015).

The above maximum concentration values apply to each homogeneous material rather than a product or a part itself. A homogeneous material means material of uniform composition cannot be mechanically separated into different materials.

TOSATTO E VERONESI hereby declares that it does not produce nor import any AEE.

In any case TOSATTO E VERONESI declares that its components are ROHS 2 compliance by requesting to its suppliers to provide all the necessary documentation and certificates of compliance to verify the conformity of their products to the D.2011/68/EU (ROSH 2).
